**Subject:** READ products

Talked with Holly about this after today's Terwilliger Dazard Tree Meeting:

<https://usfs.box.com/s/ylf8ull7dr7vnybgzf766x6pksarl6x7>

That link takes you to the Willamette NF Resource Advisor Pocket Guide. I was working on this last winter. It's not finished. I need more input from specialists and departments, mainly engineering.

If we decide on a method of managing Dazard trees on future fires, we should probably allude to that in this guide.

The guide will continue to be updated, so there's no end point, but wanting to get it to a point where we feel good handing this to Division Supervisors and off-Forest READs.

Also, Ian Yau finished our Dip Yes maps and is managing them still. Dispatch should have the maps on hand as well.

It seems Molly Juillerat is discontinuing her role as Forest Lead READ, not sure who the replacement is, but this would be a good email to forward on to that person too.

Lastly, I think it would be a good move for the region to hire a Regional Lead READ, to help develop and oversee these products, guide our READs, provide consistency, develop and facilitate trainings, and in the end, maybe even save money, time, and headache over potential future issues.
